INTRODUCTION TO HPCSA’s REGISTER

Registration with the HPCSA is a prerequisite for practicing any of the healthcare professions under the ambit of Council. It is a criminal offence for someone to claim that they are registered with us when they are not, or to use a title which they are not entitled to use.

Through the IR egister, you can check if a practitioner is registered, under which Register and in what category he/she is allowed to practice in.

Please select the search criteria on the left hand side in order to refine your search. Once you have made your selection, click on the search IRRegister button to search the database.

If you experience any problems please contact our Client Contact Centre on 012 338 9301 or email info@hpcsa.co.za
